

WHAT IT IS:

The MO.T.O. (Morgantown Tool Outreach) Toolbox provides City of Morgantown residents and local organizations with access to essential tools for home, property, and community maintenance. It supports individuals in completing personal projects and maintaining safe, well-kept spaces, while also enabling local organizations to plan and carry out community-focused projects, collaborate with volunteers, and take active roles in improving neighborhoods and public areas. By reducing financial and logistical barriers to tools, the library fosters community pride, engagement, and safe, well-maintained properties for all Morgantown residents.
